

TLQ/TLQA - Square Drive Torque Transducers

Product Overview

The TLQ and TLQA Torque Transducers provide accurate and cost-effective 'in-line' rotary Torque measurement with a square drive input and output. The TLQ series incorporate silver slip rings and silver-graphite brush-gear for strain gauge bridge power and signal transmission.

The TLQ series of Transducers have a high accuracy of 0.1% of full scale. A range of digital readouts and amplifiers are also available for these units.
